

# HOLIDAY SCAVENGER HUNT GAME

Addition/subtraction 1-100

## How to play

The players take a scavenger card each. They take turns rolling a face-10 dice or picking one card from a playing cards or UNO cards pile. (only numbers 1-10). They place their marker on number 1 on the board and every time they move back or forth according to the dice roll or their card. (add or subtract). The number they land on hides a picture.

They mark that picture on their scavenger card.

The first player to mark all the pictures on their scavenger card is the winner.

Depending on which picture they need the players choose to add or subtract after the dice roll.
